# ORIGINAL / STANDARD SHAPED SCREEN

Originalformscheibe

Z1000 SX O8

CBR1000RR O1

Crosstourer VFR1200X O1

CBF1000 O8

## Original shaped screen

Shape, profile and size match your bike's original screen. Available in all MRA-colors.

## Originalformscheibe

Form und Größe entsprechen der Originalscheibe. In allen MRA-Farben erhältlich.

# SPOILER SCREEN

## Spoilerscheibe

GSX-R 1000 S1

GSX-R 600/750 S8

### Spoiler Screen

This type of screen matches the original around its base and, typically, is also similar in length, but with the addition of a small spoiler section at its upper rear edge is normally slightly taller than standard. Available in all MRA-colors.

### Spoilerscheibe

Die Spoilerscheibe entspricht der Originalscheibe, hat aber am hinteren Ende eine kleine Abrisskante. In allen MRA-Farben erhältlich.

# TOURING SCREEN

## Tourenscheibe

T  
T

### Touring Screen

The Touring Screen has a similar shaped base as your bike's standard screen but, typically, is longer and taller. Its extra length and height is created by an upwardly sloping rear section over its entire width, designed to deflect wind pressure away from the rider, ensuring an easy, relaxing ride - even on long trips. For some models with very upright screens as standard, to avoid creating unnecessary turbulence, the Touring Screen is just simply extended without any further upwards angle. Available in all MRA-colors.

### Tourenscheibe

Die Tourenscheibe hat die Form wie die Originalscheibe, jedoch zusätzlich am hinteren Ende einen nach oben geneigten Windabweiser über die ganze Breite. Dadurch wird der Winddruck vom Oberkörper genommen und ein entspanntes Fahren ermöglicht, auch auf langen Touren. Bei einigen Modellen, die eine steil stehende Scheibe haben, ist der Windabweiser nur als Verlängerung ausgebildet und nicht nach oben geneigt, um Turbulenzen zu vermeiden. In allen MRA-Farben erhältlich.

# SPORT SCREEN

## Sportscheibe

# SP SP

### Sportscreen

The Sportscreen is a shortened version of the original screen and gives the motorcycle or scooter a modern, sporty look.

Die Sportscreen ist eine gekürzte Version der Originalscheibe und gibt dem Motorrad/Scooter ein modernes, sportliches Aussehen.

# MRA Racing

## MRA-Rennsport

MRA is rooted in racing. We work closely with many national and international racing teams. So don't be surprised to see teams in MOTO-GP, Superbike and Endurance using MRA windscreens. Gilera, Derbi, Kawasaki, Yamaha and Suzuki are just a few well-known examples. But MRA doesn't just provide equipment. We also sponsor several well-established drivers in addition to promising new teams and Cups.

MRA hat seine Wurzeln im Rennsport. Viele Rennteams auf nationaler wie internationaler Ebene arbeiten mit uns zusammen. So werden Teams aus Moto-GP, Superbike und Endurance wie Gilera, Derbi, Kawasaki, Yamaha, Suzuki, etc mit MRA-Scheiben ausgerüstet. Neben Technik-Ausrüster tritt MRA auch als Sponsor auf und unterstützt dadurch neben etablierten Fahrern auch Nachwuchs- und Markencups.

# RACING / DOUBLE-BUBBLE SCREEN

## Racingscheibe

# R

### Racing /Double-Bubble Screen

This type of screen was originally developed by MRA for competition and is used today by many high-level racers including works MotoGP teams. The lower part of the Racing Screen corresponds to the original profile, but with a bubble-shaped extension in the centre to improve aerodynamics and deflect wind pressure away from your helmet. Available in all MRA-colors.

### Racingscheibe

Diese Scheibenform wurde für den Rennsport entwickelt und wird von vielen Racing-Teams verwendet. Die Racingscheibe entspricht im unteren Teil der Originalscheibe, hat aber in der Mitte eine kuppelartige Erhöhung. Dadurch wird der Helm vom Winddruck entlastet und die Aerodynamik verbessert. In allen MRA-Farben erhältlich.

## X-creen: The revolutionary Spoiler system from MRA

X-creen is a very variable adjustable spoiler that can be screwed or clamped to existing motorbike windscreens. There are two versions, each of them either colourless or tinted:

**X-creen Sport:** for smaller scooters and sporty motorbikes. The small spoiler (size 260 mm x 100 mm) can be adjusted in height, angle and distance to the windscreen via double joints and provides amazing relief from wind pressure - even on sporty motorbikes.

**X-creen Tour:** for large scooters and touring motorbikes. The spoiler (size 360 mm x 150 mm) can be mounted with a simple joint (angle adjustable) or a double joint (angle, distance to the windscreen and height can be adjusted by 110 mm) so that all desired effects from a slipstream to a gentle inflow through to a cooling breeze can be achieved.

## X-creen: Das revolutionäre Spoilersystem von MRA

X-creen ist ein sehr variabel verstellbarer Spoiler, der auf vorhandene Scheiben geschraubt oder geklemmt werden kann. Es gibt zwei Ausführungen, jeweils in farblos oder getönt:

**X-creen Sport:** für kleinere Scooter und sportliche Motorräder. Der kleine Spoiler (Größe 260mm x 100mm) kann über Doppelgelenke in der Höhe, im Winkel und Abstand zur Scheibe verstellt werden und erreicht auch auf sportlichen Motorrädern eine erstaunliche Entlastung vom Winddruck.

**X-creen Tour:** für große Scooter und Tourenmotorräder. Der Spoiler (Größe 360mm x 150mm) kann mit einem einfachen Gelenk (Winkel verstellbar) oder Doppelgelenk (Winkel-, Abstand zur Scheibe und Höhe um 110mm verstellbar) montiert werden, sodass von Windschatten, über sanfte Anströmung bis hin zur kühlenden Brise alle gewünschten Wirkungen erzielt werden können.

X-creen Sport 260mm x 100mm

X-creen Tour 360mm x 150mm

**X-creen Sport** is an attachment spoiler that can be adjusted to almost every position. It can act as a windscreen enlargement with adjustable wind deflector and also as a diffuser in front of the windscreen that gently reduces the air flow or, if desired, directs the wind to the driver to refresh him on hot days.

X-creen Sport can either be clamped (e.g. for a holiday) or screwed and also has the ideal size for sporty motorbikes (available clear or smoked grey).

**X-creen Sport** ist ein Aufsatzspoiler, der sich in nahezu jede beliebige Position verstellen lässt. Er kann als Scheibenverlängerung mit verstellbarem Windabweiser ebenso fungieren, wie als Diffusor vor der Scheibe, der die Luftströmung sanft reduziert, oder wenn gewünscht, den Wind auf den Fahrer leiten, um an heißen Tagen zu erfrischen.

X-creen Sport kann wahlweise geklemmt (z.B. für einen Urlaub) oder verschraubt werden und hat auch für sportliche Motorräder die ideale Größe (lieferbar in farblos oder getönt).

**X-creeen Tour:** The spoiler (size 360 mm x 150 mm) can be mounted with a simple joint (angle adjustable) or a double joint (angle, distance to the windscreen and height can be adjusted by 110 mm) so that all desired effects from a slipstream to a gentle inflow through to a cooling breeze can be achieved.

**X-creeen Tour:** für große Scooter und Tourenmotorräder. Der Spoiler (Größe 360mm x 150mm) kann mit einem einfachen Gelenk (Winkel verstellbar) oder Doppelgelenk (Winkel-, Abstand zur Scheibe und Höhe um 110mm verstellbar) montiert werden, sodass von Windschatten, über sanfte Anströmung bis hin zur kühlenden Brise alle gewünschten Wirkungen erzielt werden können.

# VARIOSCREEN

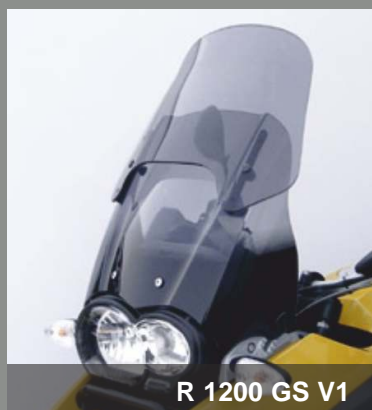

## Varioscreen

FJR 1300 VM1

Tiger 800 V1

R 1200 GS V1

XL 1000V '02 V1

### Varioscreen

The Vario Screen is in two-parts, the upper/front section of which can be adjusted in height by up to 5 cm, to find the optimum position for individual riders. Its special design provides an air inlet at the base of the front section, admitting a controlled flow of air behind the screen, providing a large reduction in wind pressure without creating excessive additional drag or turbulence. Available in clear and smoked grey.

### Varioscreen

Die Varioscreen ist zweiteilig, wobei der obere Teil hinterströmt wird und in der Höhe um 5 cm verstellbar ist. Dadurch kann der Fahrer die Scheibe für sich optimal einstellen. Durch die Hinterströmung werden Turbulenzen vermieden. Erhältlich in klar und rauchgrau.

# VARIO-TOURINGSCREEN

## Vario-Touringscreen

F 800 GS VTM1

Integra 700 VTM1

XT1200 Z VT1

T-Max 530 VT1

# VT VT

### Vario-Touringscreen

This advanced design of Touring screen has a uniquely mounted spoiler at its rear edge which, without the use of tools, can easily be adjusted into one of seven positions to suit your (and your passenger's) needs. Positioned on the top rear edge of the screen for maximum effect, the air current is spread out and slowed down, virtually eliminating turbulence. The result is airflow deflected away from the rider to allow a more relaxing, upright riding position, at high speed on long trips. Your passenger can also benefit from the improved airflow as the spoiler position can be adjusted to suit their needs too. Available in clear and smoked grey.

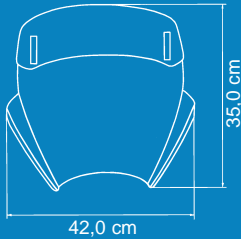

### Vario-Touringscreen

Diese Tourenscheibe hat am Ende einen Spoiler, der sich manuell in sieben Stufen auf die gewünschte Position verstellen lässt. Durch die Hinterströmung des Spoilers wird der Winddruck vom Fahrer genommen und gleichzeitig die Turbulenzen reduziert. Die Vario-Touringscreen ist in klar und rauchgrau erhältlich.

# SCREENS FOR NAKED BIKES

Windschutzscheiben für unverkleidete Motorräder

VTNB = Vario-  
touringscreen

R 850R VTNB1

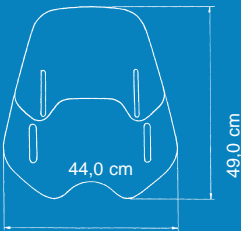

## VTNB

### Vario-Touringscreen for Naked Bikes

Small screen with a big effect. You can fix the screen at any angle you want. The upper spoiler is adjustable in seven positions and can be fixed at your favorite position. Colors: clear and smoked grey.

Kleine Scheibe mit großer Wirkung, die stufenlos im gewünschten Winkel montiert werden kann und über einen Spoiler verfügt, der sich in sieben Positionen auf die individuellen Bedürfnisse des Fahrers einstellen lässt. Farben: klar und rauchgrau.

VNB = Varioscreen

MT 01 VNB1

## VNB

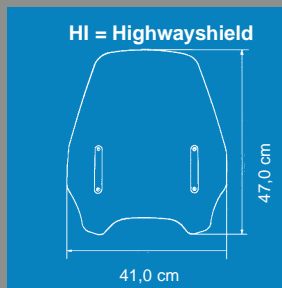

### Varioscreen for Naked Bikes

This screen comes in two parts. The upper part can be adjusted by 5 cm in height. Together with the adjustment for screen angle, this allows the motorcyclist to adjust the screen to an ideal position. The air vents in the lower part ensure an air current behind the screen, giving the rider turbulence-free wind protection. Colors: clear and smoked grey.

Diese Scheibe ist zweiteilig, wobei sich der obere Teil um 5 cm in der Höhe verstellen lässt. Zusammen mit den Verstellmöglichkeiten des Scheibenwinkels lässt sich so die individuell optimale Position finden. Durch den Lufteinlass im Unterteil wird die Scheibe hinterströmt, was einen turbulenzfreien Windschutz ermöglicht. Farben: klar und rauchgrau.

# SCREENS FOR NAKED BIKES

Windschutzscheiben für unverkleidete Motorräder

R 850R HI1

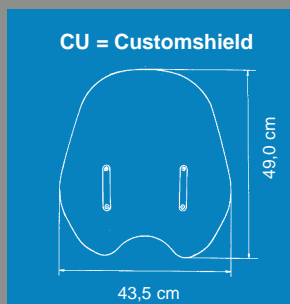

HI

## Highwayshield

This screen's plain and simple design makes it ideal for classic naked bikes and roadsters. The size of the screen protects the whole upper body from wind and rain, right up to the helmet. Available in clear and smoked grey with black rastered lower section.

## Highwayshield

Das schlichte Design der Scheibe passt ideal zu klassischen Naked Bikes und Roadster. Die Größe der Scheibe schützt den gesamten Oberkörper bis zum Helm vor Wind und Wetter. Die Scheibe ist im unteren Bereich schwarz bedruckt, was ihr eine ganz besonders edle Optik verleiht. Sie ist in klar und rauchgrau erhältlich.

R850R CU0

CU

## Customshield

The rounded design of this screen suits the style of Cruisers or Choppers. Available in clear and smoked grey.

## Customshield

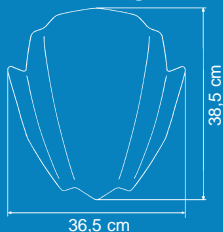

Diese Scheibe ist sehr rund geschnitten und daher auf die Optik von Cruiser und Chopper abgestimmt. Sie ist in klar und rauchgrau erhältlich.

New models are being added all the time, so ask for a range update.  
 Unser Programm wird laufend erweitert und mit neuen Modellen ergänzt. Für  
 Nachrüstverkleidungen und Superbike-Umbauten können wir ebenfalls  
 Verkleidungsscheiben in verschiedenen Formen anbieten.
